

GOFAR

Granting Opportunities For All Refugees
by supporting Refugee Workers

2022-1-DE02-KA210-ADU-000082445

This is the fourth and final GOFAR Erasmus+ project newsletter. We are pleased to inform you that all of our project's milestones have been met, and we have some exciting results to share.

Here are some highlights of what we have accomplished:

GOFAR Booklet

A comprehensive guide that provides information on the various refugee policies, legal and institutional frameworks, as well as educational materials and strategies for supporting displaced populations more effectively. Our Booklet is now freely available on our project's website.

Training Activity 1: Capacity Building: Supporting Refugees

In April 2023, the first Activity was conducted successfully in Helsinki, Finland. During the 5-day training, participants improved their intercultural knowledge and abilities, and are now better equipped to assist refugees in their home countries.

Training Activity 2: Building Resilience: Supporting the Refugee Worker

In May of 2023, the second Activity took place in Bonn, Germany. During the 5-day training, participants gained a deeper understanding of what working with refugees entails, how refugee employees may be affected, and the most effective self-care practises for overcoming challenges.

Main Target Goals

The GOFAR project partners feel that through the project's implementation they successfully achieved the initiative's main goals.

- ✓ developed fieldworkers' **COMPETENCIES** to better support refugees.
- ✓ increased the **AWARENESS** regarding the refugee crisis.
- ✓ strengthened the organizations' **CAPACITIES**.
